EDUCATION

Bachelor of Science: University of Wisconsin Oshkosh- Oshkosh, WI May 2026

- Bachelors of Science in Computer Science

EXPERIENCE

Server Engineer Associate- Platform Services - Linux - Oshkosh Corporation- Oshkosh, WI- May 2026 - Present

- Lead development of AI-driven automation workflows integrating Azure OpenAI models via LiteLLM and Event-Driven Ansible (AAP), leveraging Python to parse and validate JSON payloads and deliver AI-interpreted results to engineers
- Build an A2A-protocol Zabbix agent and 3 MCP servers in Python, containerized with Podman on Red Hat base images for repeatable releases from development to production
- Patch, harden, and monitor 350+ RHEL servers enterprise-wide, automating security compliance and configuration with Ansible and Python
- Design GitHub Actions CI/CD pipelines across 10+ repositories to test, validate, and deploy code, catching errors before production and keeping changes traceable

DT Infrastructure Intern- Oshkosh Corporation- Oshkosh, WI- June 2025 - May 2026

- Developed custom Grafana dashboard panels with HTML, CSS, and JavaScript to increase business observability and monitoring capabilities
- Utilized Microsoft SQL Server (MSSQL) to query, analyze, and integrate performance metrics for real-time visualization within Grafana dashboards
- Prototyped an early Python MCP server/client with the Azure OpenAI API, laying groundwork for current AI automation workflows
- Designed and implemented Python automation scripts to standardize and scale Red Hat Enterprise Linux server configuration, cutting down manual effort and ensuring environment consistency
- Converted to a full-time Server Engineer Associate role based on contributions to 4+ observability and AI integration initiatives

TECHNICAL SKILLS

- Languages: Python, Bash, JavaScript, Java, HTML/CSS, SQL
- Linux & Infrastructure: Red Hat Enterprise Linux (RHEL), Ansible/AAP, Podman containers, Zabbix
- AI Integration: Azure OpenAI, LiteLLM, MCP and A2A protocols, RESTful APIs, JSON
- DevOps & Tools: Git, GitHub Enterprise, GitHub Actions CI/CD, Grafana
- Databases: PostgreSQL, MSSQL, MySQL, SQLite

PROFESSIONAL SKILLS

- Communication: Translate technical issues into clear updates for 20+ internal customers and stakeholders at Oshkosh
- Problem Solving: Troubleshoot RHEL server issues and service requests, identifying root causes to prevent recurring problems
- Collaboration: Coordinate with 10+ application and security teams to schedule patching and deploy changes with minimal disruption
- Process & Quality: Follow change control, compliance, and peer review processes to keep production changes documented and traceable
- Leadership: Supervised a team of 10+ in a prior retail role, using team feedback to drive a 15% improvement in performance ratings

VOLUNTEER & CAMPUS INVOLVEMENT

- Special Olympics Volunteer - Polar Plunge, February 2025
- Campus Clean-Up at The University of Wisconsin Oshkosh
- H.o.o.a.h. March for Veteran Suicide Awareness, November 2024
- Delta Sigma Phi Epsilon Beta Chapter Alumni
